Subject Specific Vocabulary			Exciting Books
Seasons	The seasons are four different times during the year with different types of weather. They are spring, summer, fall, and winter, and are caused by the earth's orbit around the sun, its rotation on its axis, and its tilt.		
Change	To make or become different		
Migrate	To move from one country or region to another		
Hibernate	A way that some animals deal with the harshness of winter. They curl up in a safe place and stay there until winter ends. Hibernating animals seem almost dead. They barely breathe, and their body temperature is near the freezing mark. In warmer weather they return to their regular activities
