

Year 4 Home Learning: Pack 5

Hi Year 4! 😊

I hope you are all staying safe and well at home, with your families. We are very lucky to have had such lovely weather recently – I hope you have all been making the most of it! Things are ever changing at the moment and I know there is a lot of uncertainty, but try to stay positive and remember, I am here to help with anything I can!

This is your fifth learning pack and is slightly different to the packs you have had previously. Below, I've included some guidance/suggestions of where/how you can continue with some home learning.

If you aren't quite ready for this learning pack yet, don't worry – just keep working through the packs at your own pace.

I've loved hearing about what you've been doing while you've been at home, so please continue to keep me updated! I'm missing you all.

Take care,
Miss Dunn

English

You will all receive a CPG workbook for your English work, which focusses on writing. This book can be used in whichever way is best for you and your parents. You may want to start at the beginning and work through each section, or you may want to pick out certain text types to focus on.

As always, please continue reading each day and recording this in your reading record. Please also continue to use Spelling Shed and some of the activities included in previous packs to practise your spellings.

Maths

Please continue to work through the lessons on the White Rose Maths website, which is the scheme we follow in school. **Watch the video** first, which acts as the teaching input. You can find the videos using the following link: <https://whiterosemaths.com/homelearning/year-4/>

Then **complete the activities** from the worksheets. These can be found on our school website: <http://www.stmichaelsesh.durham.sch.uk/our-curriculum/home-learning/white-rose-resources/> Remember, you can write the answers to the questions from the worksheet in your exercise books – you don't have to print it out. Once you have completed the activity, use the answer sheet to **check your work**.

Try to practise your times tables regularly too, by playing Times Tables Rockstars, using online games, practising multiplication and division facts in your books, or doing this verbally with your family.

Foundation Subjects

For our foundation subjects, we are now using whole school home learning projects. The first project is called 'The Island' and provides a range of suggested ideas and activities for the children to explore in response to the project. This will be attached to this letter.
